Subject: Update for Wastewater Treatment Facilities operated by Municipal District Services

Hi Nancy, attached is a spreadsheet with a preliminary update for the wastewater treatment plants and collection systems operated by Municipal District Services. I had already created a spreadsheet before Anisa sent me the other so this looks slightly different than that one. If I need to redo or change it, please let me know. In general though I would like to let you know that most of our facilities have come thru fantastically! We have three facilities that are still inaccessible. One we were able to get to in a boat, but we have been unable to get to the other two. I will keep updating this spreadsheet and sending it on to you as information becomes available. If you have any questions please let me know.

Thank you.

Susan K. Young | Manager, Regulatory Affairs
